## Spanish numbers to 30 worksheet

Today Sra. Morato and I have some free Spanish numbered tables - Los Knobs. There is a Spanish number reference page with numbers 1 through 30. Then it has all the numbers up to 100 - 30, 40, 50, 60, 70, 80, 90, 100. And finally it has a larger number like 1,000; 10,000, 100,000 and a million. There are also two pages that combine very simply as well. We hope you find these useful! See below for Sra. Morato's pronunciation video! Scroll down to the end of the post for other free Spanish software! Los Números - Number reference table – Number matching spreadsheet Click here to save this worksheet on Pinterest! Sra. Morato's teaching videos to help you pronunciation numbers: Be sure to scroll down below for more of our free Spanish spreadsheets for kids! But first, let me tell you about Sra. Morato's online classes including her Primary Spanish Program (Grades K-6). Registration for next year (2019-2020) is now open: HomeschoolSpanishCurriculum.com/Sra. Morato has more than 20 years of teaching experience. She has taught in public schools for 16 years. (Most of her students passed the rigorous IB exam in Spanish.) She then went on to obtain a Master's degree in Online Teaching and Learning. She is a homeschooling parent herself. ?Sra. Morato has courses with weekly live speaking classes. She also has courses with self-adjusting/self-study options with the support of teachers. Spanish Primary Program - full curriculum plus interactive speaking group classes every week (This is what my girls are enrolling in.) Spanish Primary Program - full curriculum with community support Spanish 1 Foundation Spanish 2 Beyond Foundation Spanish 3 Advanced Communication Registration for this next year (2019-2020) is now open. See his website for more details! HomeschoolSpanishCurriculum.com Spanish Course for Elementary: My girls ED and DD started her Spanish Course for the Elementary Years (K-Gr. 6) this past fall and are really enjoying it! A few weeks ago, I shared great story about how Sra. Morato and I met. Since my kids have been learning German as their foreign language, I never thought about adding another language. But when I got to know Sra. Morato and saw the course she was building first hand I asked my kids if they were interested in adding another language. Other. My girl said, Yes! Absolutely! That's what is so cool about being homeschoolers! We can do it! My girls just love their Spanish class with Sra. Morato. And luckily for me, it's a class that I don't need to be involved in (since I don't speak Spanish) – you know, except to monitor that they do their job – video lessons, flashcards, games and to make sure they attend their face-to-face (online) classes at the right time. Just FYI my girls are 9 and 12. Primary Spanish classes are very suitable for them. Here's a link to a post I wrote about the Primary Spanish Program on how it works and why my girls love it. It includes teaching videos, online flashcards and games, printable spreadsheets, flashcards & games weekly group classes (This is what my girls do. They met each week on Tuesday with the same group of children & with Sra. Morato to take a look at the new documents and say practice.) OR There is an independent Version of the Spanish Primary Program that includes online community support. I was helped to make the spreadsheet sets for primary Spanish classes. Let me give you a sneak peak of some spreadsheets in the Primary Spanish course! It was fun making these spreadsheets bright, colorful! We're trying to include matching pages, flashcards, games and activities! @Homeschool Spanish 1 and 2 (Full Year Online Classes). You can also learn more about Sra. Homeschool Spanish 1 or Spanish 2 Online Classes. Sra. Morato is an indigenous Spanish-speaking person and has been teaching for more than 20 years. She teaches Spanish in public schools and helps many of her students become fluent and pass the Spanish IB test! More free Spanish spreadsheet sets for kids!
